SUMMARY

Passionate about technology and committed to continuous learning, I stay updated with the latest advancements. My enthusiasm for new concepts and tools drives my growth. Through a proactive academic journey, I seek opportunities that challenge and develop my skills. With a solid foundation and eagerness to contribute, I am ready to make meaningful contributions to the tech industry.

EXPERTISE

Web Development- HTML, Bootstrap, Laravel , WordPress, Angular

Programming Languages- C, Java, Python

Database- MySQL, Oracle

Tools- Git, GitHub

EXPERIENCE

HYBRID INTERACTIVE CONSULTANCY

JAN 2025 - PRESENT

Software Development Intern

Developed and customized web applications using WordPress, Laravel, and Angular, focusing on enhancing functionality and user experience. Customized WordPress themes and plugins, built dynamic user interfaces with Angular, and conducted functionality testing to ensure optimal performance. Collaborated within a team environment, applying best practices to improve application efficiency and maintainability.

PROJECTS

USED BOOKS BUYING AND SELLING PLATFORM-LARAVEL

Description:

The UsedBooks Buying and Selling Platform is an online portal designed to facilitate the buying and selling of pre-owned books.

PASSWORD MANAGER-JAVA

Description:

The Password Manager is a Java application for managing passwords securely. It allows users to store, retrieve, edit, and remove passwords for various websites or applications.

HYBRID PATHWAYS-ANGULAR

Description:

Hybrid Pathways is a web application built with Angular and Tailwind CSS for job posting and candidate management. It features Admin, Employer, Jobseeker, and Student Modules, enabling job listings, applicant tracking, and course management with a responsive UI.
